B. Administration and Problems

Records Management Section - A records survey of the General Services Office was undertaken starting with the Machine Records Branch of the Records Services Division. As of the end of the month, the records of the Machine Records Branch had been inventoried and a tentative disposition schedule prepared. We are now in process of obtaining the necessary concurrences of other affected offices. The standard filing system was installed for the correspondence records of the office. Installation of the filing system in the Space, Maintenance and Facilities Division is now in process.

The Office of Inspection and Security has appointed a full time Area Records Officer. Their tentative selection was who attended the Records Management Training Course. Subsequently, it was decided that on his present duties and should be retained 25X1A9a the position. Will not actively undertake a records management program for the office until his replacement is on duty sometime during the latter part of August.

The report on the survey of the Records Integration Staff and the Western Hemisphere Division of FI was completed and ten copies were submitted to 25X1A9a

To date, participation in the vital materials program by the Office of Training has been very limited. However, we have now been informed that beginning this month, they are ready to undertake a fully adequate program.

Records Center Section - A Project Review Committee submittal, requesting the construction of an Agency Records Center, has been prepared and is ready for presentation.

The Personnel Office has agreed to Records Center storage of personnel folders for separated employees. Five cabinets of folders have been transferred and it is expected that approximately 20 more (total of 150 boxes) will be forwarded in the next 30 to 60 days.

Much of the activity of Center operations was directed toward planning for expansion into the month, renovation plans for the building were drawn up and 25X1A6a approved by the I&S Office. This work was about completed by the end of the month. It will be possible to begin moving records into the building on 6 August.

Center personnel worked out floor layout plans for the storage of palletized records in the Warehouse. They also completed an inventory of the inactive records in custody that could be stored in such a manner.

Mail Control Section - The Mail Control Section assumed the responsibility of transporting the classified trash from the Reproduction Plant to the Office of Inspection and Security vault in "I" Building.

A questionnaire was developed and circulated requesting information regarding requirements of the various Registeries for overtime courier service. This information will be used in reducing the courier overtime to the minimum needed to fulfill service requirements.

Approved For Release 2001/03/04/61-00177A000200100004-7

Security Information

C. PROJECT STATUS REPORT

<u>Project 1-53</u> - Records Management Survey of the Office of the Director.

No further action pending a reply to report submitted 8 April 1953.

<u>Project 3-53</u> - Preparation of a comprehensive schedule for the disposition of fiscal records.

A tentative disposition schedule (exclusive of the Finance Division) was submitted in June 1953 for approval. Action is now being delayed pending completion of a schedule for the Finance Division. Two branches of the Finance Division have been inventoried with the assistance of analysts from this office. Further progress is being delayed pending the availability of the Area Records Officer who is working on another assignment, and completion of a move involving two branches.

Project 4-53 - Records Survey of the Office of Operations.

The survey of the headquarter's records of 00/C and three field offices has been completed.

25X1A6a

Project 5-53 - Rewriting of CIA Correspondence Manual.

No action this month due to other priority assignments given the responsible analyst since his completion of the Basic Intelligence Course on 10 July.
